HILL CONTACT Dr. Stuart Goldman (287-7689)

COMMITTEE/MEMBER Congressional Research Service

SUBJECT Briefing on Soviet nuclear incident

ACTION OFFICER

SUMMARY:

Goldman called requesting an unclassified (or classified, if necessary) briefing on the Soviet nuclear incident. He is a Soviet affairs analyst in the Foreign Affairs Division of CRS and has been getting a lot of queries from Congressional offices and committees regarding the incident. The briefing would be used towards preparing an unclassified paper on the subject.

After checking with [] I advised Goldman that all the information on that subject is highly classified and the appropriate committees/Members of Congress had been briefed. If any Member requests a briefing they are more than welcome to call CIA. Goldman wondered if he could receive a classified briefing. I declined saying the information was too highly classified.

I encouraged him to go to DOE, State or DIA for unclassified information (per [] suggestion).
